(Regarding All Claims)

There is no particular technical difficulty in the application to a well known search server or to an electronic commerce server (for example, for hotel reservation inquiries and ticket inquiries) of the technology, described in the aforementioned Cited Literature 1 (noting, in particular the scope of patent claims) wherein data is sent after translating into a second language data that had been written in a first language, and wherein the search results written in a second language are translated into a first language.

Furthermore, when translating tagged text represented in a hyperlinked document, processing after separating into text-to-be-translated, and text-not-to-be-translated is a common practice. (If necessary, refer to the aforementioned Cited Literature 2).

Full English-language translations of the foreign-language documents are not readily available. However, the absence of such translations does not relieve the PTO from its duty to consider the submitted foreign language documents (37 CFR §1.98 and MPEP §609).

Applicant respectfully requests that any listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 CFR §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 19-0741. Should no proper payment be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 19-0741.
